🪪 PROFILE

Ardent at coding challenges, I find it intriguing to develop new web platforms that help make life easier and better.

🧠 SKILLS

- Node.js
- Javascript
- CSS
- React.js
- HTML
- MongoDB

🎓 EDUCATION

2018 – 08/2021	**BACHELORS IN COMPUTER APPLICATIONS** *D.A.V INSTITUTE OF MANAGEMENT*	Faridabad, India

📁 PROJECTS

Place-Blog App
A web application that works like a blog application but where in users can add the places they have visited as a post in the form Pictures, Location, Description and other details. Other users can then check out these places.

Book Directory
A web app for users to store their books in a local database. Users sign up and then login which creates a token for authorization.

E-commerce App
An application through which users can sign up and login and then order items. They can scan a QR code to open an item too.
